EDUCATION

Vijayalakshmi Vishwanath Dalvie College, Maharashtra

B.Sc. in Information Technology | Aug 2022 – April 2025 | CGPA: 9.04

Kharepatan College of Arts, Science, and Commerce, Maharashtra

HSC (12th Grade - Science) | Jul 2021 – Mar 2022 | Percentage: 69.60

Nadgive English Medium School, Maharashtra

SSC (10th Grade) | Jun 2019 – Mar 2020 | Percentage: 82.20%

WORK EXPERIENCE

Morningstar Sustainalytics — Data Analyst.

Dec 2025 – Present

- Analyzed and processed ESG datasets to support sustainability research and reporting
 - Performed data cleaning, validation, and quality checks ensuring high data accuracy
 - Worked with structured datasets to maintain and update large-scale financial data
 - Collaborated with internal teams to improve data workflows and efficiency
 - Applied analytical thinking to interpret ESG metrics and trends
-

TECHNICAL SKILLS

- **Programming & Data:** Python (Data Analysis, Machine Learning), SQL, SQLite with SQL Alchemy
 - **Machine Learning & Analytics:** Data wrangling, Feature Engineering, Model Evaluation, Hypothesis Testing, Regression, Classification; scikit-learn, XGBoost
 - **MLOps / Deployment:** Flask APIs, Gunicorn deployment, REST APIs (OpenWeatherMap, Foursquare)
 - **Data Visualization & BI Tools:** Tableau (dashboards, filters, parameters), Matplotlib, Seaborn, Excel, Google Sheets
 - **Web & Development Tools:** Flask, HTML5, Jupyter Notebook, VS Code, Git/GitHub
 - **Core CS:** Data Structures (arrays, hashmaps, trees), Algorithms (searching, sorting), Operating Systems concepts
 - **Soft Skills:** Analytical Thinking, Problem-Solving, Communication
-

PROJECTS

Farmsphere – Agricultural Assistant Web Application

- End-to-end agriculture assistant using Flask, SQLite, scikit-learn, and XGBoost.
- Features: crop recommendation, rainfall prediction, and yield estimation; integrated real-time weather data.
- Deployed via Flask API and Gunicorn; responsive UI.

FoodMood – Smart Food Recommender (Hackathon | Aug 2025)

- Craving-based food recommender using Flask and Foursquare API with location-based suggestions.
 - Dynamic DB switching (SQLite/Postgres) and automated email notifications.
 - Deployed on cloud with responsive UI.
-

INTERNSHIPS & SIMULATIONS

Accenture North America – Data Analytics & Visualization

- Advised a hypothetical social media client as a Data Analyst.
- Cleaned, modeled, and analyzed 7 datasets to uncover content trends.
- Communicated insights via PowerPoint deck and video presentation.

Tata Group – Data Analytics (Forage | June 2025)

- Conducted EDA and proposed a no-code predictive modeling framework for customer risk assessment using GenAI tools.
- Designed AI-driven collections strategy incorporating ethical AI, compliance, and scalability.

Deloitte Australia – Data Analytics (Forage | July 2025)

- Analyzed datasets and applied problem-solving for real-world case simulations.
 - Created interactive dashboards in Tableau and used Excel for business insights.
-

CERTIFICATIONS

- IBM Data Science Professional Certification (In Progress)
